Natural Cheese vs. Processed Cheese

Natural Cheese: noun, a general classification for cheese that is made directly from milk. **Processed Cheese:** noun, a mass produced product made of one or more types of cheese that have been heated and mixed with emulsifiers, colorings, flavorings, etc., primarily to retard spoilage and enhance spreadability at a reduced cost. **In order to provide the highest quality products to our customers, 4 Seasons chooses to use only natural cheeses in our gift boxes and cheese cups.**

2300
